

WSC Civic Engagement Requirements

The Basic Requirements

- ⇒ All members must experience the full curriculum as participants. Members who start after the team has already gone through all or part of the curriculum may be given a review of previous material covered.
- ⇒ All teams must facilitate the curriculum with at least one group of youth.
- ⇒ Youth participants should be middle-school aged, approximately 11-14.
- ⇒ All members must be involved in the youth facilitation in some way. They do not all have to directly facilitate the curriculum with youth.
- ⇒ Members should not be expected to regularly serve more than 40 hours per week in order to fulfill the requirements of civic engagement.

Curriculum Adaptation and Supplementation

- ⇒ *Adapting* the curriculum by removing a portion of it (activity, lesson, or reflection) and replacing it with something not already in the *Roadmap* must be approved by WSC Program Coordinators before the adaptation is used.
- ⇒ *Supplementing* the curriculum by adding things without taking anything out does not require WSC Program Coordinator approval. However, sharing curriculum supplements with WSC Program Coordinators can help the WSC distribute good ideas amongst teams.
- ⇒ For the full guidelines on curriculum adaptations, please see the *Roadmap* Curriculum Adaptation Guidelines and Submission Form.

Facilitation and Process

- ⇒ The final service project should be chosen and organized by the participants (members or youth).
- ⇒ All participants need to complete the appropriate assessment.
